21. If there are any other items you use in your classroom (not just the new items), like specific hardware or software, please list those here.

#	Response
1	I use my ipod to record my class discussions and I use Microsoft Producer to combine the recordings with pictures and/or video of the class. I post these items online for students that are absent and for students that need a review.
2	Kestral portable weather station. Wireless mouse.
3	A & P Revealed (software for anatomy) ADAM (software for anatomy)
4	I still like my overhead projector. The elmo is so faint, that I can barely see what is being projected. The dvd/vcr is more cumbersome than the old traditional tv- though I do use it. I think once I get better at using the airliner, I will really enjoy using it.
